

**REGULATORY COMPLIANCE STATEMENT  
FOR FOOD CONTACT ARTICLES**

We, Polinas Plastik Sanayi ve Ticaret A.Ş. declare that,

**Polinas® BOPET Film PHAC-TH, PLAC-TH**

is suitable to come in contact with foodstuffs, being in conformity with:

**EEC Regulations and Directives:** 10/2011 (and its successive amendments up to and including 2020/1245), Regulation 1935/2004/EC

**Turkey :** Türk Gıda Kodeksi Gıda İle Temas Eden Plastik Madde Ve Malzemeler Tebliği (Tebliğ No: 2019/43 – 2019/44 - 25.12.2019 tarih 30989 nolu Resmi Gazete)

The film contains the following substances subjected to restrictions in accordance with the laws above mentioned:

N° CAS	Component	SML/QM
0000111-46-6	Diethylene glycol	30 mg/kg
0000107-21-1	Ethylene glycol	
0000100-21-0	Terephthalic acid	7,5 mg/kg
0000121-91-5	Isophthalic acid	5 mg/kg
000120-61-6	Dimethyl terephthalate (DMT)	60 mg/kg
000077-99-6	1,1,1-Trimethylolpropane	6 mg/kg
00110-63-4	1,4-Butanediol	5 mg/kg
00126-30-7	2,2-Dimethyl-1,3-propanediol	0,05 mg/kg
PM REF:91530	Sulphosuccinic acid alkyl (C4-C20) or cyclohexyl diesters, salts	5 mg/kg

The film respects the limits of overall migration and specific migrations in the following conditions:

**Acetic acid 3% (B simulant) at 20°C / 10 days**

**Polinas Plastik San. ve Tic. A.Ş.**
**Ethyl alcohol 50% (D<sub>1</sub> simulant) at 20°C / 10 days**
**Veg. oil containing less than 1% unsaponified matter (D<sub>2</sub> simulant) at 20°C / 10 days**

The overall and specific migrations (including primary aromatic amines and metals according to Annex II of Regulation (EU) No 10/2011), whose the monomers or/and the additives are subjected, are respected in accordance with the usage conditions above mentioned. The assertion is supported by analytical tests, carried out in accordance with EC10/2011 and with the DM 21/03/73 or on the basis of calculations carried out considering the content of the substances subjected to migration limits. The computations have been arranged assuming that 1 kg of food comes in contact with 6 dm<sup>2</sup> of film.

**SPECIFIC MIGRATION OF METALS:**

**Acetic acid 3% (B simulant) at 20°C / 10 days**  
**Ethyl alcohol 50% (D<sub>1</sub> simulant) at 20°C / 10 days**  
**Veg. oil containing less than 1% unsaponified matter (D<sub>2</sub> simulant) at 20°C / 10 days**

**General list of migration limits for substances migrating from plastic materials and articles**

NAME	Salts allowed in accordance with Article 6(3)(a)	Specific (mg/Kg food or food simulant)	Remark	Test result (mg/Kg food simulant)
Aluminum	yes	1 mg/kg		< 0,5
Antimony	no	0,04	<b>(2)</b>	< 0,02
Barium	yes	1		< 0,02
Cobalt	yes	0,05		< 0,02
Copper	yes	5		< 1
Iron	yes	48		< 1
Lithium	yes	0,6		< 0,02
Manganese	yes	0,6		< 0,02
Zinc	Yes	5 mg/Kg		< 1

(2) The note in Annex I, Table 1, FCM No 398 applies: SML might be exceeded at very high temperature

The same simulants (B, D1, D2) and conditions as for OML, are used for SML testing for all food types, therefore SML testing with Tenax (Simulant E) for dry foods is not required at all. Migration test in simulant Tenax have not yet been carried out in compliance with the article 22 – Reg. 10/2011.

**DUAL USE ADDITIVES :**

The film contains following food additives

Chemical Name	PM Ref Number	E Number
Silicone dioxide	86240	E551
Talc		E553b

**HEAVY METALS :**

The raw materials used in the production of said BOPET film does not contain heavy metals such as cadmium, hexavalent chromium, lead nickel, tin, arsenic, PBB, PBDE and mercury, as declared by the suppliers. Neither the said heavy metals nor their compounds are intentionally added during the production of the said BOPET film, nor they are used, directly or indirectly, in the production process itself.

Any incidental amount of heavy metals contained does not exceed 100 ppm (by weight).

For these reasons, we hereby declare that the said BOPET film complies with the following regulations:

**a. USA CONEG REGULATION**

**b. 2009/48/EC (Safety of toys)**

**c. Directive 94/62/EC on packaging and packaging waste is amended by Directive 2004/12/EC and 2018/852.**

**d. ROHS Regulation (2011/65/EC)**

**e. WEEE Regulation (2002/96/EC)**

**ABSENCE OF SUBSTANCE**

The raw materials used in the production of the said film does not contain the following substances, as declared by the relevant raw materials suppliers

Hazardous substances (reported in the "N" list of Directive 67/548/ECC and successive modifications), Epoxidic derivates (B.A.D.G.E. – B.F.D.G.E. – N.O.G.E.) (Directive 01/61/ECC and 05/1895/CEE), phthalates (as listed in Decision 99/815/EC, Decision 2004/781/EC and Regulation 1907/2006/EC), Di(2-ethylhexyl)phthalate (DEHP), melamine and cyanuric acid, alkylphenols, parabens, PVC, PVDC, latex, Substances derived from animal, vegetable and human sources, Acrylamide (CAS # 79-06-1), Substances regulated by Directives 96/5/CE and amendments (presence of pesticides as listed in Directive 2006/125/EC annex VI e VII), fluorinated substances, Gamma butirrolactone (GBL) CAS n. 96-48-0, bisphenol A (CAS 80-05-07) & F, benzene, toluene, acetylacetone CAS 123-54-6, titanium acetylacetonate CAS 17927-72, absence of Organic Tin Compounds, absence of halogenated compounds, nanotechnology, formaldehyde, photoinitiators, adipates and mineral oils, ozone depleting substances, PFOA (perfluorooctanoic acid), PFOS (perfluorooctane sulfonate), nano particles

Neither the said substances are intentionally added during the production of the said film, nor they are used, directly or indirectly, in the production process itself.

**GMP :**

Polinas operates in conformity to the Good Practices of Manufacture according to European Regulation 2023/2006/CE

Polinas Plastik San. ve Tic. A.Ş.

## **GMO – DIOXINE – RESTRICTIONS-ALLERGENS – RECYCLED RAW MATERIAL USAGE:**

According to the information received from our suppliers PET Chips, additives and coating materials used for the production of said films do not contain any genetically modified organisms (GMO)

**2003/11/EC** (restrictions on the marketing and use of certain dangerous substances and preparations) : please refer absence list given below.

**1895/2005 EC** (restriction of use of certain epoxy derivatives in materials and articles intended to come into contact with food) : please refer absence list given below.

**252/2012 EC** (related with dioxine and dioxine related PCB's in the food chain) is not applicable to our products.

Our films do not contain any allergic substances and we hereby confirm that our film complies with **1169/2011 EC** and its amendments.

Polinas films are produced only from virgin resin and do not contain post-consumer recycled components, and no obligation exists under the **282/2008/EC**

## **RECYCLING :**

BOPET films can be recycled.

## **NIAS :**

Non-Intentionally added substances (NIAS) are under ongoing risk assessment using recognized method.

## **REACH :**

Under the REACH regulation, all Polinas products are manufactured items which are obtained from polymers, and so exempted from REACH registration.

POLINAS have taken all necessary steps to ensure that chemical components from which POLINAS' products are obtained fulfill the obligation of the REACH registration, with specific requests of declarations from POLINAS' raw material suppliers.

Raw material suppliers to POLINAS are:

- Producers of Polymers
- Producers of Polymer Masterbatches (admixture of Polymers and other components)

Polymers are exempted from the provisions of registration of Title II of REACH (Article 2(9)).

Polymer Masterbatches are considered, in regulatory terms, "preparations", and are exempted from the provisions of registration.

**Polinas Plastik San. ve Tic. A.Ş.**

Nevertheless, the obligation of registration of the individual chemical substances used by the raw material suppliers to POLINAS (Producers of Polymers and Producers of Polymer Masterbatches) goes down in the supply chain to the obliged parties that supply the base chemicals and monomers to the Producers of Polymers and Producers of Polymer Masterbatches that are the present suppliers to POLINAS.

**SVHC :**

Our films do not contain substances of very high concern (SVHC) of the candidate list which is frequently renewed by ECHA. New list is updated regularly, if necessary, on our web site.
